

Talk Time

For children between 18 & 27 months

Talk Time is a group providing on-going support, advice and practical activities to help develop your child's speech and language.

What will the course include?

- Explore how speech and language develops.
- Practise activities with your child to encourage their speech and language development.
- Meet other parents and children in the same situation as yourself and learn from your child.
- Borrow from our library of toys, which are all helpful for language development.

Your child will spend part of the time in the crèche and part with you in the session doing fun activities
